All outdoor and indoor events with 50 or more people are now banned. For gatherings with 49 people or fewer, we advise facilities to remain at less than 50% capacity in order to better encourage social distancing. For more information about places of public gathering and scheduled events, contact those facilities or visit their websites.

There is now **widespread community transmission of COVID-19 in New York City**, meaning **the sources of new infections are unknown. Everyone in New York City should act as if they have been exposed to COVID-19.** That means monitoring your health closely and staying home from work if you are sick. **New Yorkers who are NOT sick should also stay home as much as possible** and avoid all unnecessary social interactions. Read more [here](#).

- The USNS Comfort, a Navy hospital ship, arrived in New York City. The 1,000-bed hospital ship will be used to treat non-coronavirus patients, to ease the burden on hospitals as they deal with the flood of patients with COVID-19, the disease caused by the virus.
- There are only two operations that we need to perform: First, the public has to be responsible. Stay at home," Cuomo said. "It is a mandate. Stay at home. If you're a non-essential worker, stay at home. If you leave the house you're exposing yourself to danger. If you leave the house, you're exposing others to danger."
- Issued an Executive Order making it clear that women will not be forced to be alone when they are giving birth. [Full story here!](#)
